## General Auto Tools Ltd

### Professional Design And General Application

We are a large integrated company, specialized in researching, manufacturing and selling hand tools and automobile maintenance tools. Our main products include hand tools, tools sets, spanners, socket sets, hammers, knives, automobile tools, tire repair tools, etc. All products are professional. As well as with general application, all the products are exported to over 30 countries and regions such as Germany, UK, Spain, Poland, Russia, US, Japan, South-east Asia, the Middle East etc.

### 10% of Annual R&D Investment

Innovation is the important drive of an enterprise's development, thus we spend 10% annual profit on R&D of the new products and improvement of the existed products.

### Social Duty

We believe in principle of "benefit from the society and benefit the society." Every year, we spend 3% of our profit on helping dropouts.

### Contact Us

We warmly welcome friends from all over the world to take a visit of our factory & company and establish friendly and mutual beneficial business cooperation.

## Three Major Advantages of Our Company:

### 一、 Manufacturing and Supplying

We have woven a network of partnership all over China. We have more than 1000 suppliers to satisfy all your needs. We have established stock-cooperation with 19 suppliers and 25 factories have set up 1 or 2 production lines for our orders specially.

Around 110 different products are manufactured by our own company.

### 二、 Quality Control

We have independent inspection center.

Quality control is consistent across the whole process of orders. 100% QC will be conducted during production. And, sampling test will be conducted after warehouse entry.

### 三、 Warehousing and Transportation

Our warehouse can hold around 200\*20 FT containers of goods.

Goods in the warehouse are stocked on 5-rack shelves to guarantee packing in good condition before loading.

You can select the products you are interested in our warehouse, especially when your order will be shipped to many different countries or areas.

We provide multiple transportation services including railway, highroads, by sea, by air or their combines. Door to door and custom clearance services are available from us.
